Non-Anesthetic Teeth Cleaning for Dogs: Fact vs Fiction

Does your Cavalier have bad breath? Do you regularly brush their teeth? Are you concerned about putting them under anesthesia every six months to have their teeth professionally cleaned? Join us for an interactive presentation that will answer these questions and more! Our dogs need regular, preventative dental care just like we do to support a healthy mouth and teeth. Paul Tylar and Lexi Evans will share examples from their real patients at Pet Tooth Fairy and offer helpful tips and best practices for your dog's oral health.

Paul Tylar is the new owner of Pet Tooth Fairy (formerly The Natural Pet Tooth Fairy), and will share his vision for the company, how he plans to rebrand and grow the business, his commitment to providing a safe and affordable alternative for dog owners, and ideas for new services and locations.

Lexi Evans joined Pet Tooth Fairy in the Fall of 2023 as a Veterinary Dental Hygienist and has leveraged her past experience working in both veterinary specialty and animal hospital environments to bring a more in-depth perspective in treating her patients, and more transparency in communicating with pet parents including more detailed medical record documentation, explanation of potential causes of disease, and insightful treatment plans.
