## **Estate Planning for Your Pets with Michael Blacksburg, Esq.**

As a pet owner who knows the value of the incredible bond he shares with his own pet, Michael Blacksburg recognizes the importance of ensuring that your pets will be properly taken care of in the event that something happens to you. A pet trust allows for the care of your animals should you pass away or become unable to care for them. A trust can provide instructions for money for care and feeding, kennel care, pet insurance, and the enforcement of the trust. You can even designate real estate property to provide a place for your animals to reside.

**Michael Blacksburg** attorney at law is a Bay Area estate planning attorney who practices statewide. Michael has been estate planning for over 20 years. He has both the technical experience and emotional capacity to work with folks who are ready to answer the question: When succession matters, what must be done? Michael takes the time to understand your “today” so that he can build a workable estate plan for your tomorrow. Michael developed a unique three-pillar approach that integrates documents, communication and organization to support management of your assets, responsibilities and ultimate gifts. Michael has a multi-disciplinary background in fiduciary trust services, wealth management and leadership coaching. He’s been family advisor to multi-generational families broadening their impact and children’s and pet preparations. All of this allows him to provide an extraordinary advisory service wrapped in an approachable neighborhood style.
